

aws INNOVATE

MODERN APPLICATIONS EDITION

27 & 28 October 2021

Building a web application with geolocation functionalities

Marcia Villalba

Senior Developer Advocate

Amazon Web Services

@mavi888uy

Life of a developer

We need a web application that allows our customers to search in a map for our branches and notifies them when the package is ready for pick-up.

PM of a delivery company

Developer

Life of a developer

It needs to scale, as we expect a lot of customers and packages.
And we need it by the end of the week!

PM of a delivery company

Developer

A woman with dark hair tied back, wearing a dark blue shirt with white polka dots, is sitting at a desk. She is looking at a laptop screen with a thoughtful expression, her hand resting on her chin. The background is a blurred office setting with a potted plant on the right.

Onboarding

Data privacy

Integration with our systems

Amazon Location Service

- Easy access to high-quality data
- Cost-effective
- Privacy and security
- Shorter time to production

Amazon Location Service data providers

What we are going to build?

2. Find the best route to get to the branch

1. Search for a branch in a map

3. Notify when the package is ready for pick-up

Setting up the demo

Set up your demo

```
$ npx create-react-app drop-the-box-demo
```

```
$ npm install bootstrap @aws-amplify/ui-react aws-sdk
```

```
$ npm install react-map-gl maplibre-gl amazon-location-helpers
```

```
$ npm install @craco/craco --save
```

```
$ amplify init
```

```
$ amplify add auth
```

```
$ amplify push --yes
```

And configure craco

1. Add a map to a react app

Add a map to a react app

1. Create a map using Amazon Location Services
2. Add permissions to your Amazon Cognito Identity Pool role
3. Show the map in your app

Add this policy to your Amplify Auth Role

```
{  
  "Version": "2012-10-17",  
  "Statement": [  
    {  
      "Effect": "Allow",  
      "Action": "geo:GetMap*",  
      "Resource": "arn:aws:geo:<REGION>:  
                  <ACCOUNTNUMBER>:map/<NAMEOFMAP>"  
    }  
  ]  
}
```

2. Find the best route to a branch

Find the best route to a branch

How to get to your closest branch?

From:

Juan Benito Blanco 661, Montevideo

To:

Store Montevideo Shopping

Find the way

Amazon Location Service

`searchPlaceIndexForText`

Returns GPS coordinate

Find the best route to a branch

How to get to your closest branch?

From:
Juan Benito Blanco 661, Montevideo

To:
Store Montevideo Shopping

Find the way

Amazon Location Service

`searchPlaceIndexForText`

Returns GPS coordinate

With to and from
GPS coordinates

Amazon Location Service

`calculateRoute`

Returns a route

Add this policy to your Amplify Auth Role

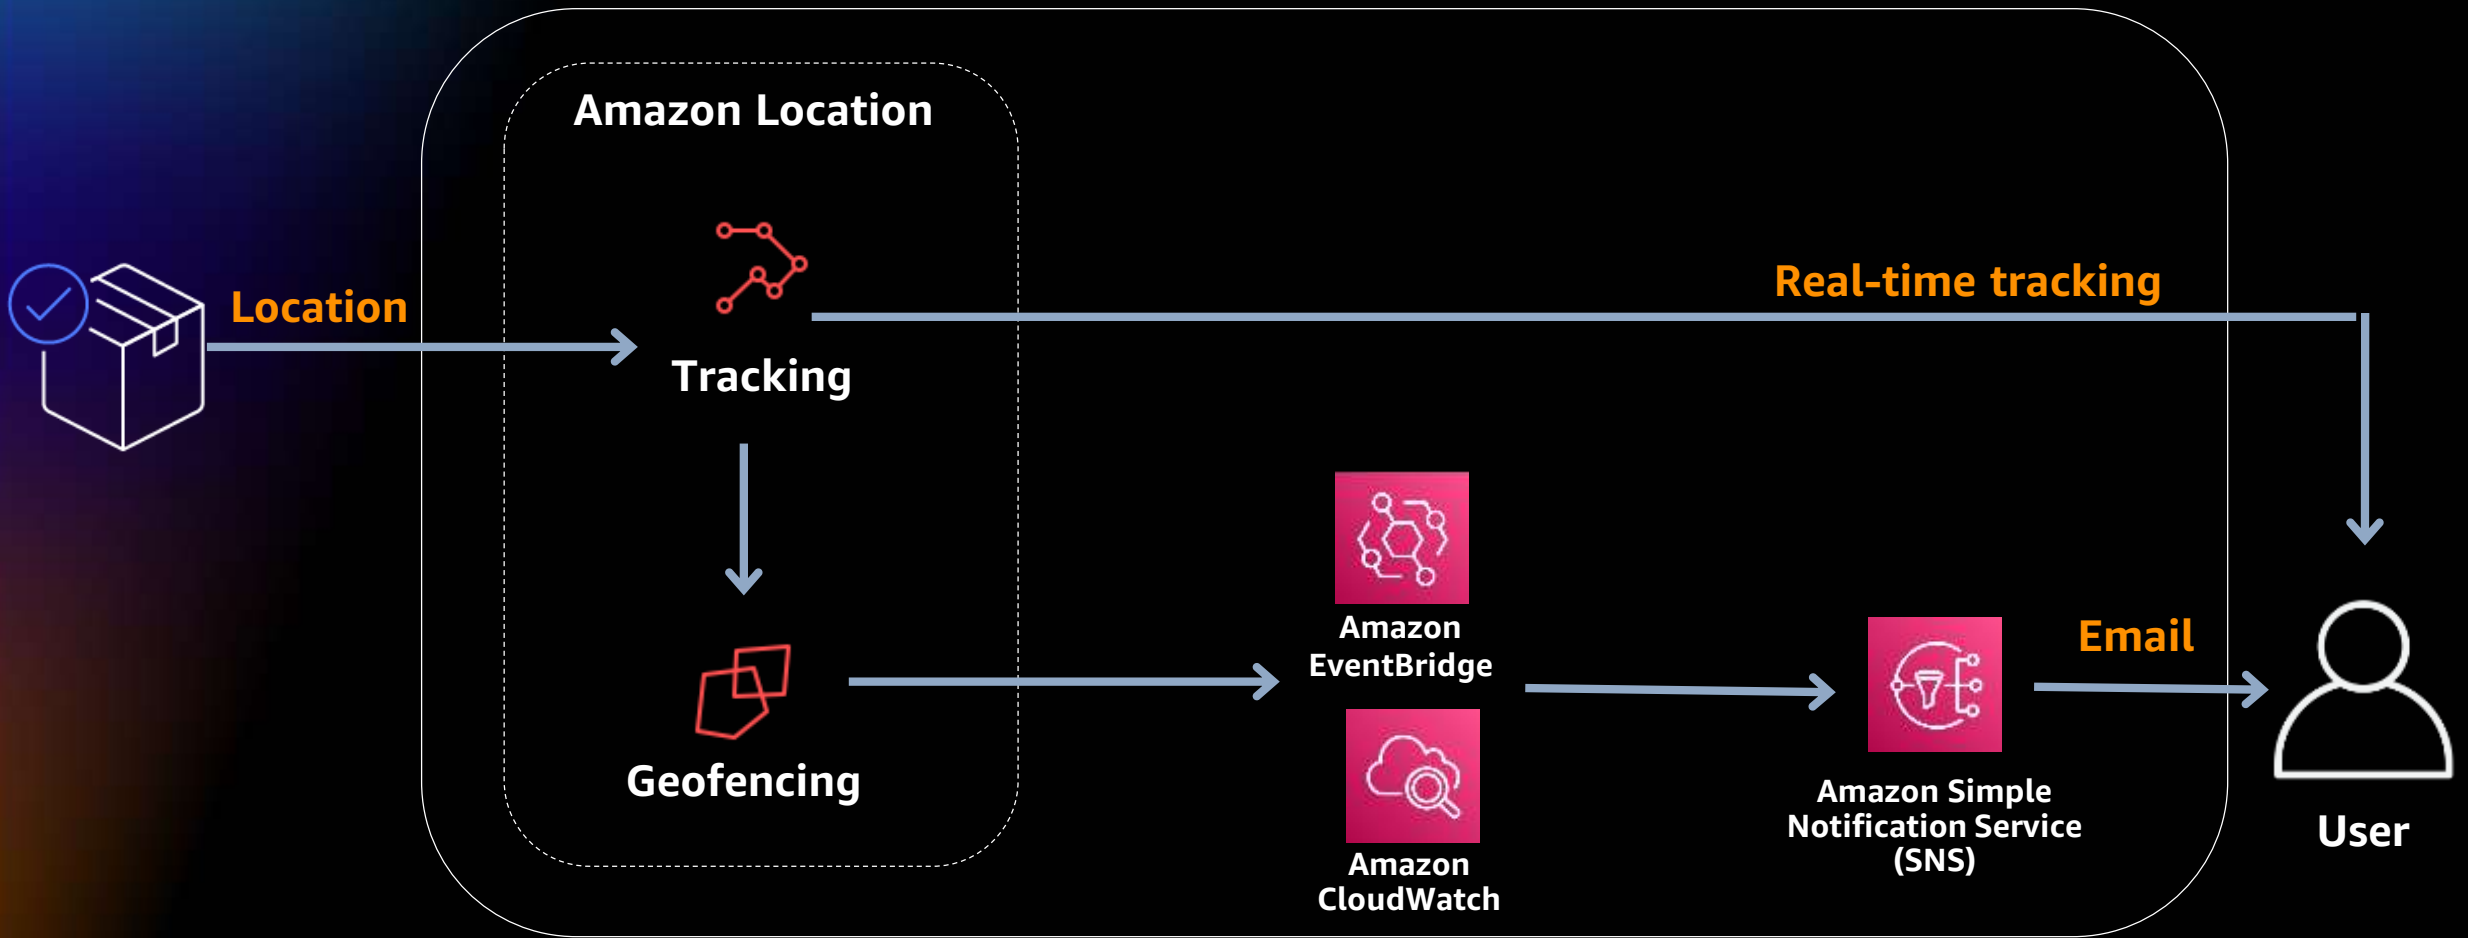

```
{  
  "Version": "2012-10-17",  
  "Statement": [  
    {  
      "Effect": "Allow",  
      "Action": "geo:CalculateRoute",  
      "Resource": "arn:aws:geo:<REGION>:  
                  <ACCOUNTNUMBER>:route-calculator/<ROUTE CALCULATOR NAME>"  
    }  
  ]  
}
```

Add this policy to your Amplify Auth Role

```
{  
  "Version": "2012-10-17",  
  "Statement": [  
    {  
      "Effect": "Allow",  
      "Action": "geo:SearchPlaceIndexForText",  
      "Resource": "arn:aws:geo:<REGION>:  
                  <ACCOUNTNUMBER>:place-index/<INDEXNAME>"  
    }  
  ]  
}
```

3. Send event when the package is ready

How geofencing and tracking works?

Update position of tracker to ENTER geofence

```
$ aws location batch-update-device-position  
  --tracker-name myTracker  
  --updates DeviceId=ABCD1234,  
            Position=-56.136789321899414,-34.90353061963231,  
            SampleTime=$(date +%s)
```

Update position of tracker to EXIT geofence

```
$ aws location batch-update-device-position  
    --tracker-name myTracker  
    --updates DeviceId=ABCD1234,  
              Position=-56.139492988586426,-34.906064662796354,  
    SampleTime=$(date +%s)
```

Life of a developer

**The first prototype is ready !
It's scalable, it integrates with our systems and it's all built
with no servers to maintain.**

AWS Training and Certification

Accelerate modernization with continuous learning

Free digital courses, including:
[Architecting serverless solutions](#)
[Getting started with DevOps on AWS](#)

Earn an industry-recognized credential:
[AWS Certified Developer – Associate](#)
[AWS Certified DevOps – Professional](#)

Hands-on classroom training
(available virtually) including:
[Running containers on Amazon Elastic
Kubernetes Service \(Amazon EKS\)](#)
[Advanced developing on AWS](#)

Create a self-paced learning roadmap
[AWS ramp-up guide - Developer](#)
[AWS ramp-up guide - DevOps](#)

Take [Developer](#)
[and DevOps training](#)
today

Learn more about
[Modernization training](#) for you
and your team

Thank you for attending AWS Innovate Modern Applications Edition

We hope you found it interesting! A kind reminder to **complete the survey**.
Let us know what you thought of today's event and how we can improve the event
experience for you in the future.
